SERVICES AVAILABLE

**BASIC RATES
(GST EXTRA)**

1. WINTER COVER REMOVAL: Includes draining, cleaning and folding the cover; cleaning waterline & coping; testing the "stabilizer" level; mounting deck equipment & fittings; dewinterizing filter, heater and pump. All chemicals & parts provided will be additionally invoiced.
 If SYSTEM START-UP is required, see item #3 below.

2. WINTER COVER REMOVAL, POOL DRAINING & CLEANING: Includes all items in #1, plus draining and washing the pool interior in preparation for filling or painting.

3. SYSTEM START-UP: Includes starting up and checking any pumps; installing automatic cleaners; checking the general operation of the pool system; and adding chemicals, if necessary. Any chemicals or parts we supply will be invoiced for in addition to the Start-Up fee. Please note, the START-UP does not include *vacuuming* the pool; nor does it include lighting or servicing the heater; only a licenced gas fitter can service a gas-fired pool heater.

4. SPRING VACUUM CALL: This service is available to those customers who do not have "Weekly Vacuuming" and is performed a day, or so, after the SYSTEM START-UP. In some cases, at least 2 calls are necessary to render the pool clean. All chemicals and parts supplied will be invoiced for in addition to the Spring Vacuum Call fee.

PER HOUR

5. WEEKLY VACUUMING: Includes cleaning the pool surface, waterline and vacuuming the pool; testing and adjusting chemical levels; filling automatic chemical feeders; cleaning skimmer and pump baskets; and backwashing the filter, if necessary. All chemicals and parts supplied will be invoiced for in addition to the Weekly Vacuuming fee.

PLEASE SEE ENCLOSED SHEET FOR RATES & OPTIONS

6. REGULAR POOL-CHECK: Includes all the items in #5 except cleaning or vacuuming of the pool.

PLEASE SEE ENCLOSED SHEET FOR RATES & OPTIONS

7. COMPLETE WINTERIZING: Includes lowering the water level; uninstalling ladders and diving boards (if possible); adjusting chemical balances if necessary; winterizing system piping, heater, pump and filter; "shock" treating the water and adding algaecide; installing the winter cover. We will allow 15 minutes for cleaning the pool; if extensive cleaning is necessary, a surcharge to the Winterizing fee will be applied. We include the "Shock" and "algaecide" in the Winterizing fee; however, any "balancing" chemicals, plugs, parts or water tubes supplied will be invoiced for in addition to the Winterizing fee.
